Prefabrication Assembly and Shop Drawings for:

Overhead Conduit Racks

Underground Conduits

Overhead Cable Trays

In-Wall Devices

Panels and Pull Boxes

Channel Strut Assemblies

Our Services

Electrical BIM Modeling

Maximize efficiency & accuracy with Eracore's Electrical BIM models. Our detailed designs help you avoid costly errors, streamline project timelines, and ensure seamless coordination across teams.

Prefabrication BIM Services

Enhance your project's speed and precision with Eracore's prefabrication BIM services. Our models enable off-site production, reducing on-site installation time and cutting waste.

Coordination & Clash Detection

Avoid construction setbacks with Eracore's BIM coordination & clash detection. By resolving conflicts early, you minimize rework, reduce costs, and ensure smoother collaboration across teams.

Why Eracore

- Passionate About Your Success
- Always Available When You Need Us
- Flexible to Your Time Zone (EST/PST)
- Client-Focused, Tailored BIM Solutions
- Cost-Effective and Error-Free Designs
